

NEW JERSEY

USGBC NJ's SESP Training Grant Provides Fully Funded Green Building Education

USGBC NJ is currently providing fully funded green building training for NJ veterans and the unemployed through a NJ Department of Labor grant. In today's challenging economy and business climate, education/accreditation in the green building and related industries give employment candidates and incumbent (employed) workers a competitive edge in today's workforce. Our training programs are designed to accommodate all levels within the industry. Veteran and unemployed grantees will also be given one year's free membership to USGBC NJ to facilitate networking with our 1,100+ members to facilitate procurement of job opportunities.
